

As a family, we have been listening to k-love for many years in our home and as we drive around Tucson. I enjoy listening to k-love because I do not have to worry about obnoxious disc jockeys or questionable lyrics and music while my kids listen to our radio. In our area, there are only a few similar music stations and none that play contemporary Christian music. Why change the programming if you don't know what will replace what is already there? Besides, I send a monthly stipend to k-love so the entire community can listen to it. If you remove k-love, I lose my choice to give to the radio station.
